

moengage

What if we told you...

**you could save
all this instead of
spending it?**

It shouldn't be

this expens\$\$\$ive

to build, maintain, and scale
your Transactional Messages

We can

slash

your costs by

60%

for Transactional email/SMS

mengage

Presenting

A one-stop shop for everything

Transactional Messaging

With Inform, you can

Reduce spends to 40% of your expenditure for critical alerts

Edit, update, and send instantly with zero engineering overhead

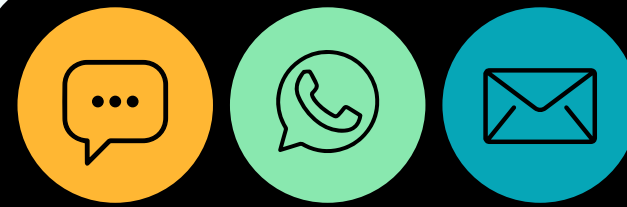

Add new channels within minutes, not weeks

If that wasn't enough,

90%

lesser time from
concept to Live alert

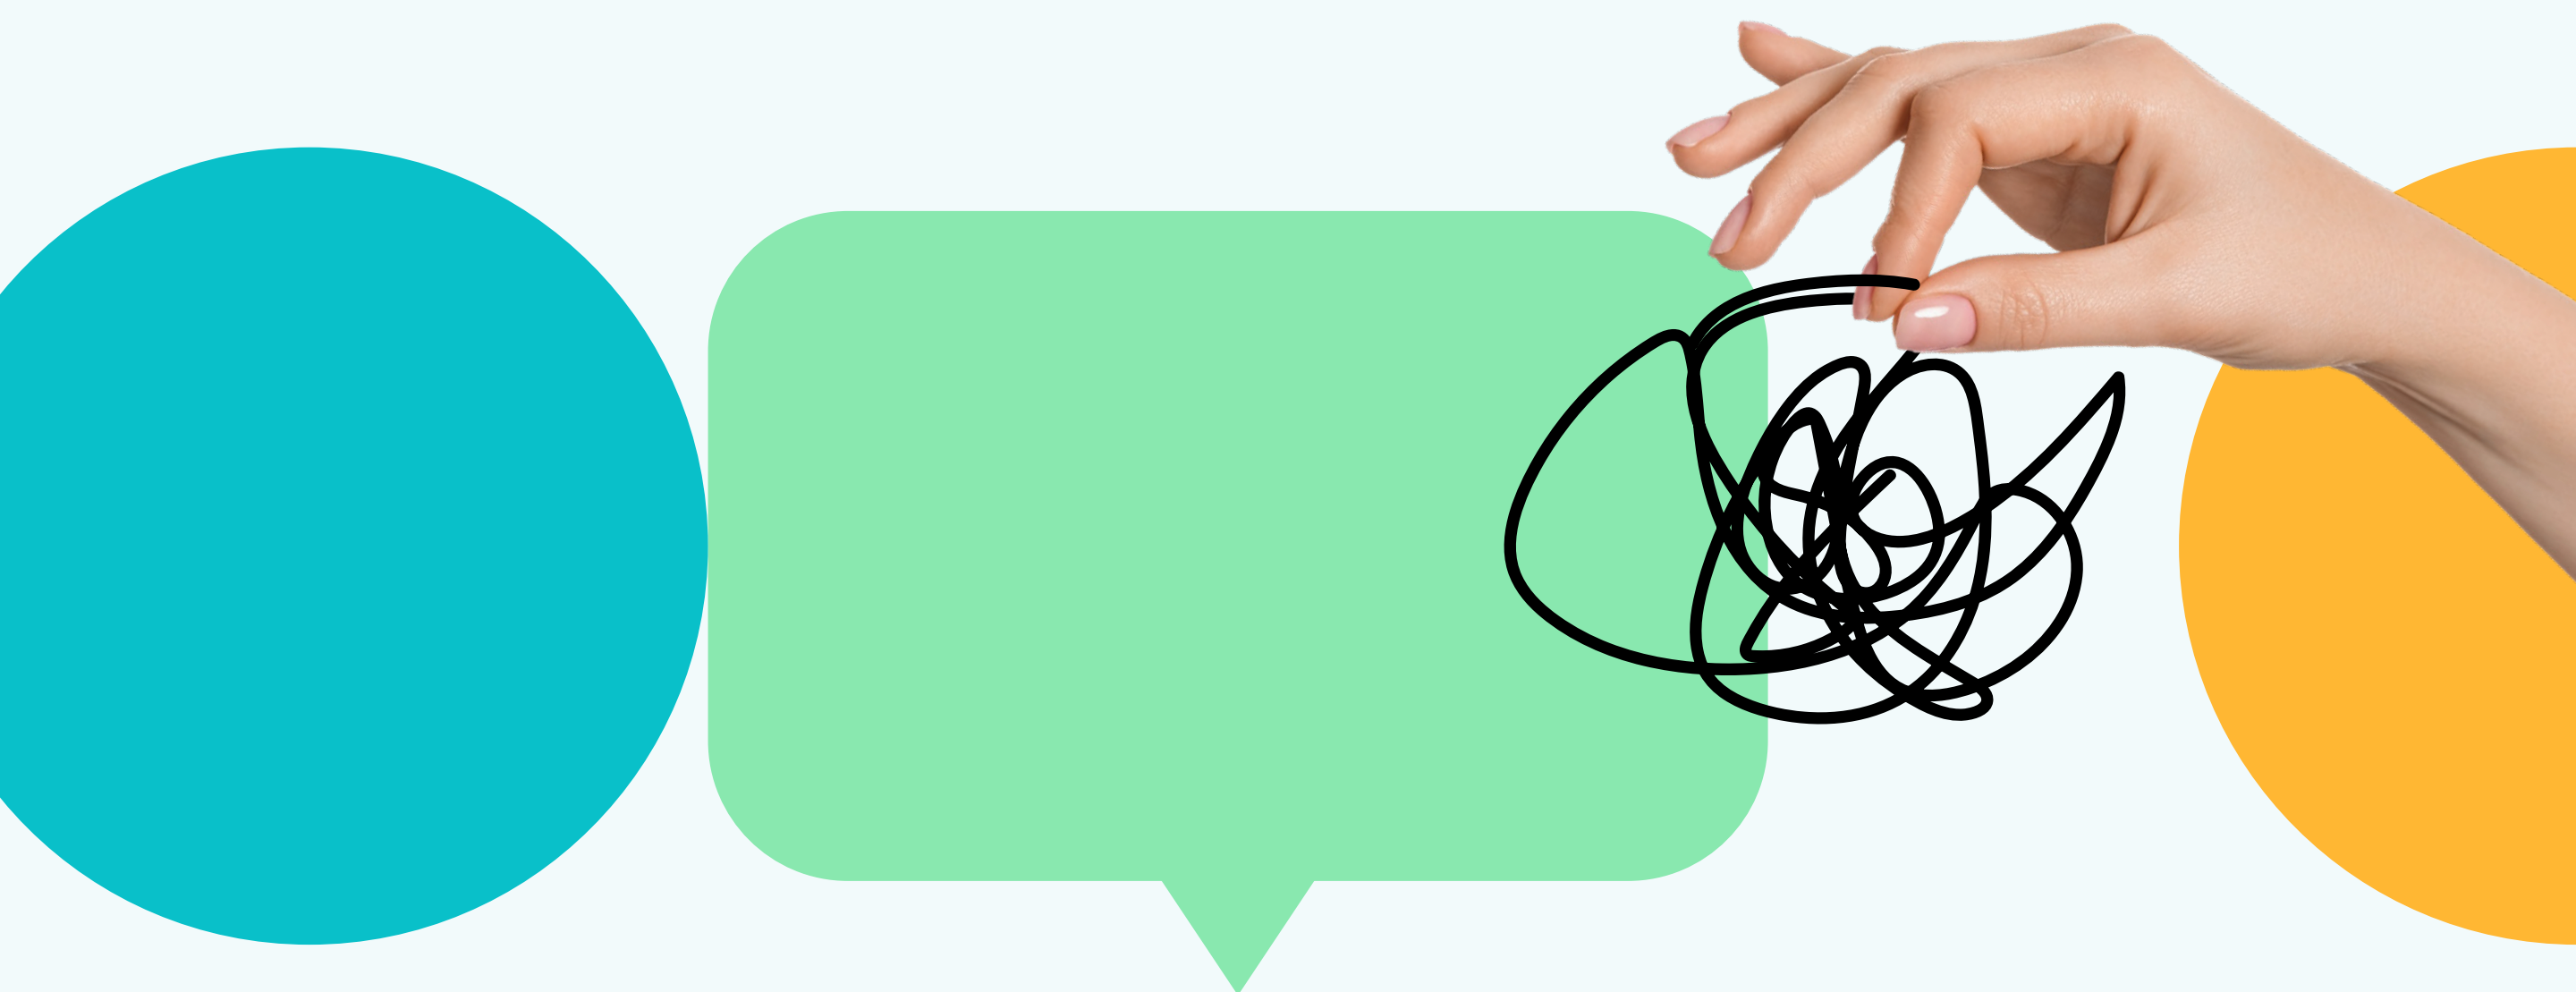

Get
channel fallback
for any
delivery failures

A single API
to manage
30+ providers

Go on.

Take the mess out of your messaging infrastructure.
