What if
we could
slash your
to-do list
by half?

mengage

Building, maintaining
and scaling a
Transactional
Messaging system
shouldn't eat up your
bandwidth this much.

moengage

Presenting
MoEngage

Inform

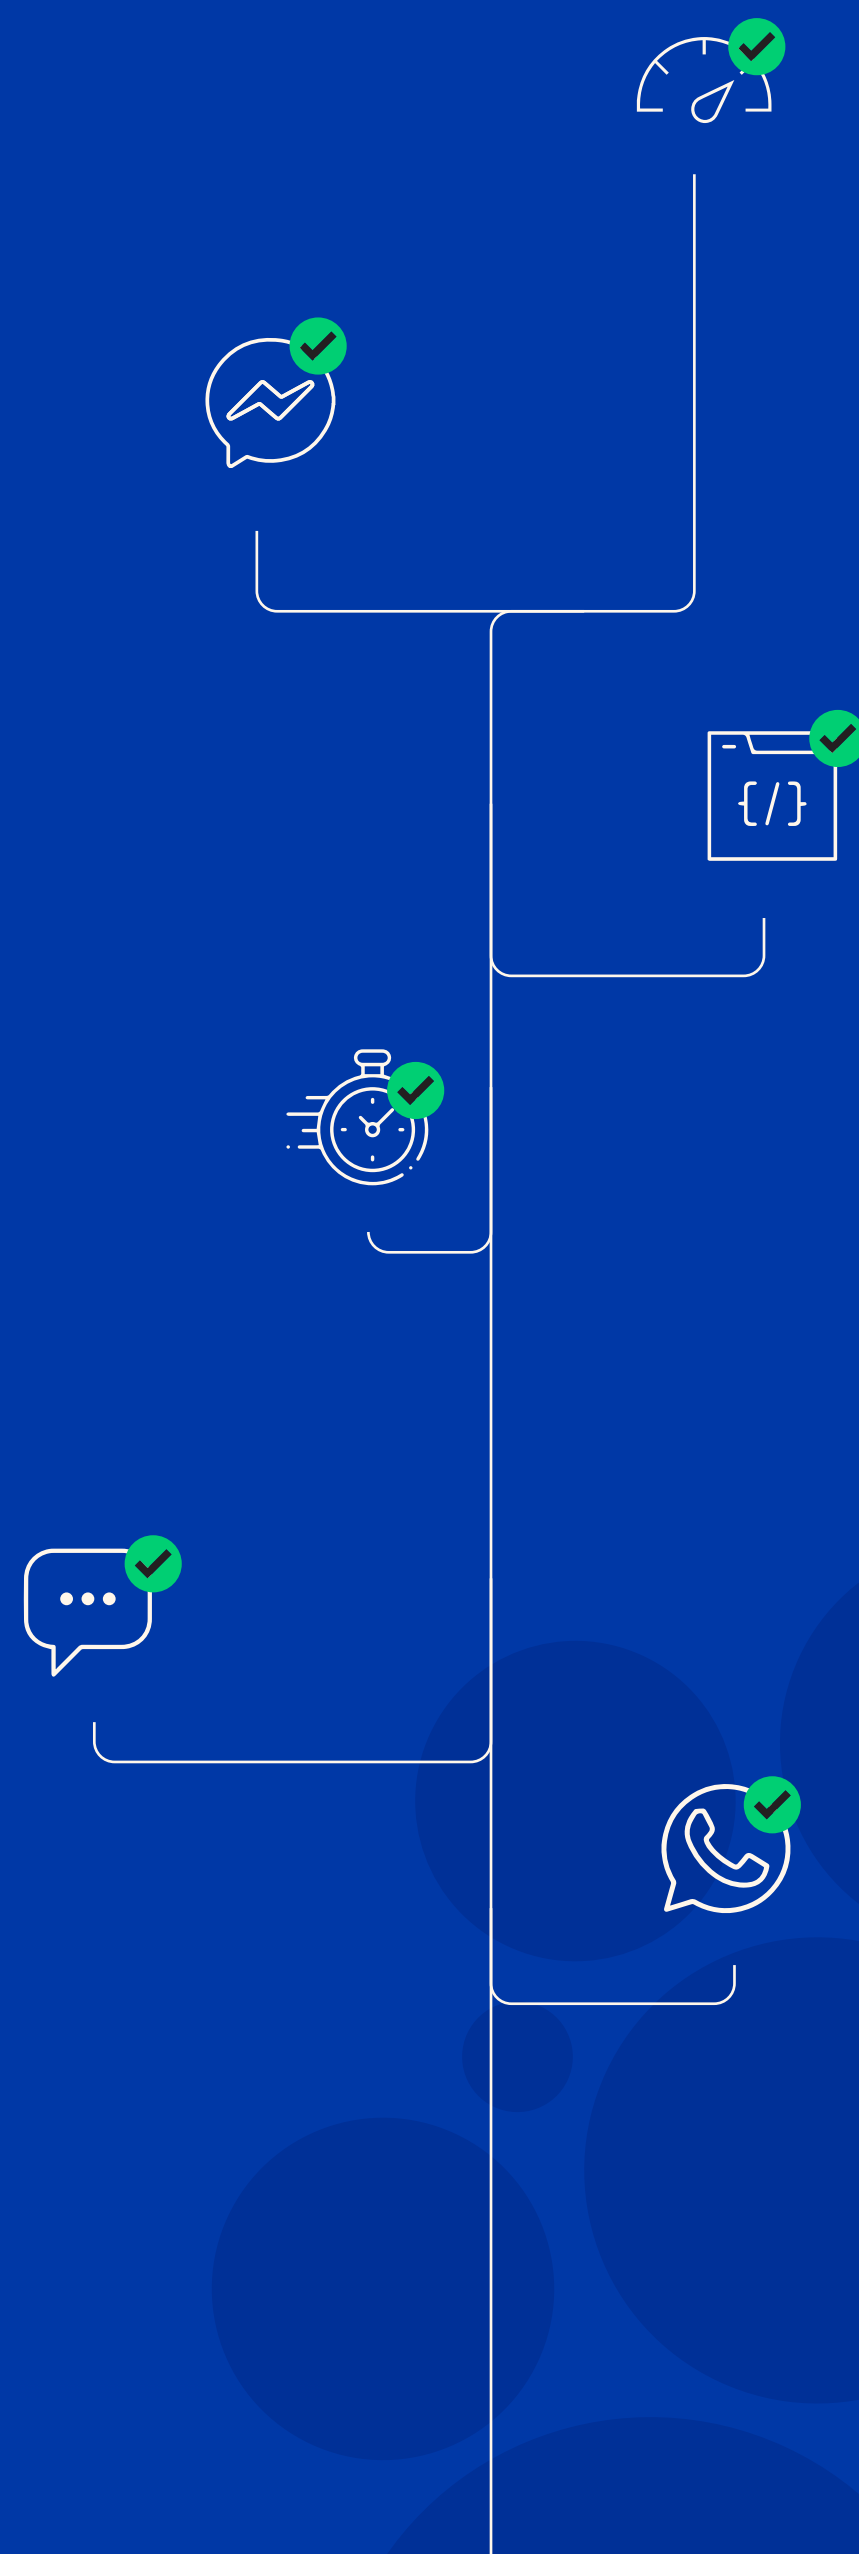

One place for **everything**
Transactional Messaging.

Inform lets you

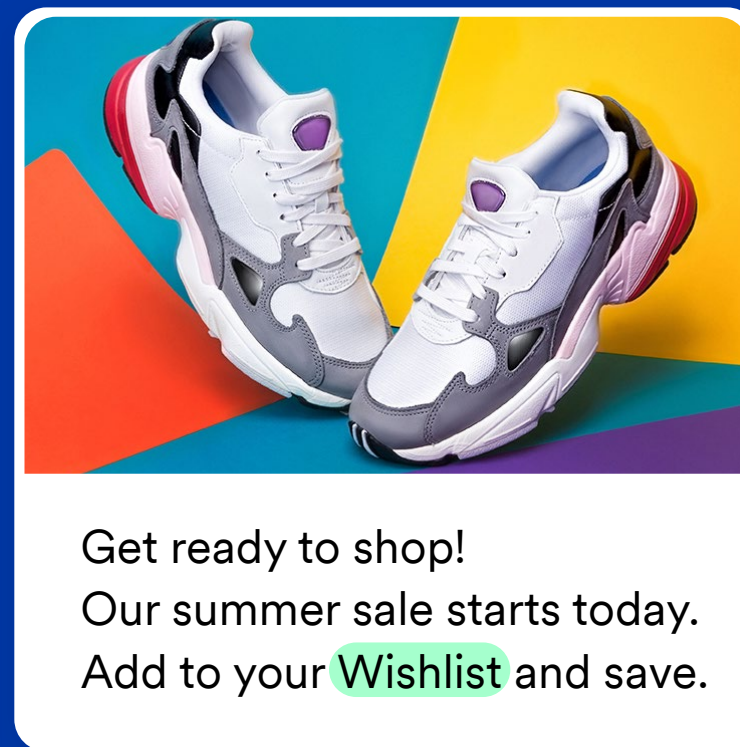

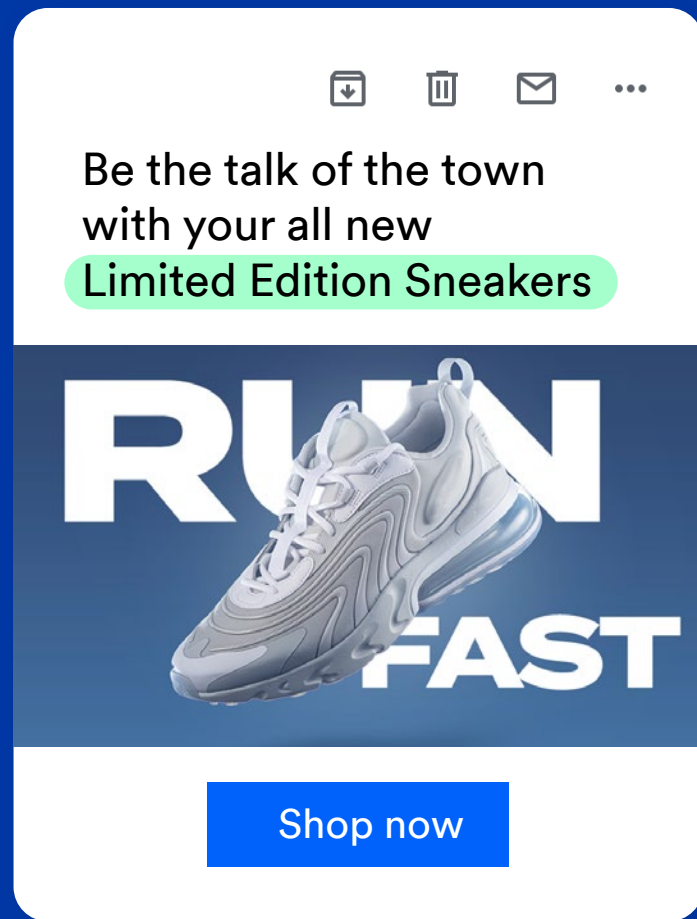

- + **Slash 95% of developer bandwidth** for critical alerts
- + **Reduce** time to debug by **80%**
- + **Debug in real time** with centralized logs

If this wasn't enough, you can also

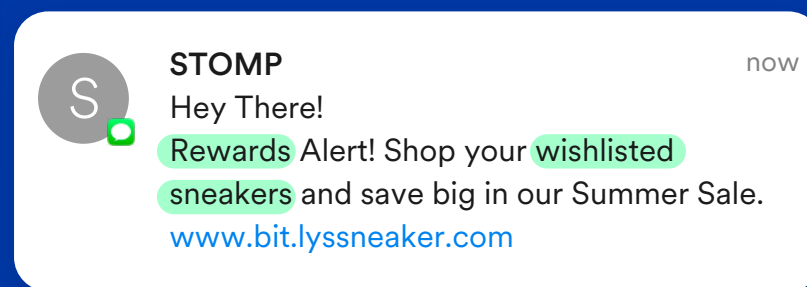

- + Add **new channels in minutes**
- + **Make changes instantly** without engineering overhead
- + **One API** to manage 30+ providers
